

# Template Week 7 – Host your website on GitHub

Student number: 588734

Domain name (URL) of your website on GitHub:

<https://github.com/588734/itfundamentals>

Relevant screenshots + motivation:

The screenshot shows a GitHub repository named 'itfundamentals' belonging to user '588734'. The repository has a single commit from 'cb906c6 · now' with the message 'Add files via upload'. The commit details show the addition of several files: '..', 'css', 'images', 'NetworkSegment.java', 'home.html', 'index.html', 'week1.html', 'week2.html', 'week3.html', 'week4.html', 'week5.html', 'week6.html', and 'week7.html'. The left sidebar shows a tree view of the repository structure under the 'main' branch, with the 'site' folder expanded to show these files.

Ik heb de website bestanden geupload, de pdfs doe ik zo toevoegen aan de website aangezien ik hem anders niet meer mijn opdrachten kan uploaden.

Ready? Save this file and export it as a pdf file with the name: [week7.pdf](#)
